

Melanie Toh Final Project Summary

TOPIC AND PURPOSE

My website will showcase my portfolio and act as a more detailed and visual resumé. The audience will be recruiters, employers, and eventually people interested in my artwork when I develop a larger artwork portfolio. I hope that it will set me apart from other applicants as I search for internship positions.

EXTRAS

My site has a “contact me” form that leads to a confirmation page, as well as hovering icons as my navbar, which make use of transitions.
